

How Much Are Fax Orders Costing You?

The fax machine remains a healthcare mainstay, with some HME providers receiving up to **75% of orders by fax**. Even as clinicians continue to rely on fax machines to send orders, failure to digitize order management can have impacts on revenue and patient experience.

Let's take a look at some of the challenges of fax intake reported by customers

Eliminate Manual Fax Intake and Discover the Benefits

3x faster order processing

3-5% more referral growth

16-22% higher profit margin per order

0 redundant data entry
